370-374 A comparison of the quality of online information about total knee arthroplasty available in Turkish and English: a cross-sectional study Küçükdurmuş F et al. Original Article

375-381 Reduced patellofemoral and walking pain with mobile-bearing vs. fixed-bearing total knee replacements: a mid-term prospective analytic study Pais-Brito JL et al. Original Article

382-386 Efficacy of rapid recovery protocol for total knee arthroplasty: a retrospective study Köksal İ et al. Original Article

387-393 Impact of oxidative stress on early postoperative knee function and muscle injury biochemical markers: Is it possible to create an ischemic preconditioning effect in sequential ischemic surgical procedures? Aktaş E et al. Original Article

394-398 Immunohistochemical analysis of mechanoreceptors in transverse acetabular ligament and labrum: a prospective analysis of 35 cases Kılıçarslan K et al. Original Article

399-404 Chevron osteotomy in patients with scheduled osteotomy of the medial malleolus Gül M et al. Original Article

405-409 Does lengthening after acute correction negatively affect bone healing during distraction osteogenesis? Karaköyün Ö et al. Original Article

410-415 Hydroxyapatite pins for external fixation: is there sufficient evidence to prove that coated pins are less likely to be replaced prematurely? Aklapa O et al. Original Article

416-420 Binesetter interventions and consequences Zehir S et al. Original Article

421-425 Surgical light handles: a source of contamination in the surgical field Schweitzer D et al. Original Article

426-432 Biomechanical outcome of proximal femoral nail antirotation is superior to proximal femoral locking compression plate for reverse oblique intertrochanteric fractures: a biomechanical study of intertrochanteric fractures Ma JX et al. Experimental Study

433-437 Anatomical relations between anterior coracospinal ligament and supraspinal nerve structures and a proposal for classification Gürses İA et al. Experimental Study

438-446 Comparison of the effects of chronic intra-articular administration of tenoxicam, diclofenac, and methylprednisolone in healthy rats Orak MM et al. Experimental Study

447-452 Effect of intramuscular botulinum toxin-A in a rat rotator cuff repair model: an experimental study Şahin E et al. Experimental Study

456-458 Bilateral internal pudendal artery-urethral fistula formation by pseudoaneurysm Chen J et al. Case Report

459-464 Spinal epidural cavernous angioma: two case reports and review of the literature Bayrı Y et al. Case Report

465-470 Comparison of extracorporeal shock wave therapy in acute and chronic lateral epicondylitis Köksal İ et al. Original Article

471-477 Functional outcomes of arthroscopic treatment of lateral epicondylitis Ertum K et al. Original Article

478-482 The triangle between the anterior and posterior cruciate ligaments: an arthroscopic anatomy study Kaya A et al. Original Article

483-491 Does the anteromedial portal provide clinical superiority compared to the transtibial portal in anterior cruciate ligament reconstruction in nonprofessional athletes in short-term follow-up? TaşdemIr Z et al. Original Article

492-496 Psychiatric and functional evaluation of professional athletes following anterior cruciate ligament reconstruction Çelebi MM et al. Original Article

503-507 Total knee arthroplasty after osseous ankylosis of the knee joint Kovalak E et al. Original Article

508-512 Analysis of the reliability and validity of the Turkish version of the intermittent and constant osteoarthritis pain questionnaire Erel S et al. Original Article

513-521 Single-stage posterior transfemoral lumbar interbody fusion, debridement, limited decompression, 3-column reconstruction, and posterior instrumentation in surgical treatment for single-segment lumbar spinal tuberculosis Zeng H et al. Original Article

522-529 Safety and feasibility of lumbar spine for intralaminar screw fixation: a computed tomography-based morphometric study Kömürnü E et al. Original Article

530-538 A combined procedure for irreducible dislocation of patella in children with ligamentous laxity: a preliminary report İnan M et al. Original Article

539-543 Comparison between knot and Winograd techniques on ingrown nail treatment İnce B et al. Original Article

544-551 Effect of platelet-rich plasma for treatment of Achilles tendons in free-moving rats after surgical incision and treatment Yüksel S et al. Experimental Study

552-557 Reliability of threaded locking screws Karaarslan AA et al. Experimental Study
558-564 Effects of intraperitoneal hydrogen injection on nitric oxide synthase mRNA and malondialdehyde following limb ischemia-reperfusion in rabbits

565-567 A mechanically locked knee joint due to free-floating flake-shaped rice bodies: a case report

568-570 Parvovirus B19-induced acute bilateral carpal tunnel syndrome in twin girls

571-575 Omentum and reverse turnover latissimus dorsi musculocutaneous flap for the treatment of cerebrospinal fluid fistula

576 Functional outcomes of minimally invasive percutaneous plate osteosynthesis in humerus shaft fractures

579-585 Posterior cruciate ligament reconstruction via tibial inlay technique in isolated or multiligament knee injuries

586-592 Mini-midvastus versus mini-medial parapatellar approach in simultaneous bilateral total knee arthroplasty with 24-month follow-up

593-596 Return to driving after total knee arthroplasty

597-605 The midterm and long-term effects of acetabular roof ring and Burch-Schneider anti-protrusio cages in acetabular revisions for patients with acetabular bone deficiency

606-613 Reliability and variability in the interpretation of lumbar high intensity zone

614-619 Transverse decompression technique in the surgical treatment of degenerative lumbar canal stenosis

620-626 Factors affecting adherence with foot abduction orthosis following Ponseti method

627-633 Preliminary report on amputation versus reconstruction in treatment of tibial hemimelia

634-640 Surgical management of bone metastases from urological malignancies: an analysis of 70 cases

641-647 Proximal row carpectomy for Lichtman stage III Kienböck's disease

648-653 Modified Simmonds-Menelaus procedure for moderate or severe adult hallux valgus

654-660 Tension band wiring through double-cannulated screws as a new internal fixation method for treatment of olecranon fractures: a randomized comparative study

661-667 Percutaneous repair of acute Achilles tendon rupture: a functional evaluation study with a minimum 10-year follow-up

668-675 Exchanging reamed nailing versus augmentative compression plating with autogenous bone grafting for aseptic femoral shaft nonunion: a retrospective cohort study

676-682 Effect of pentoxifylline on healing of segmental bone defects and angiogenesis

683-689 Histopathological and biomechanical evaluation of bone healing properties of DBM and DBM-G90 in a rabbit model

690-693 A new surgical technique for traumatic dislocation of posterior tibial tendon with avulsion fracture of medial malleolus

694-697 Mosaicplasty for the treatment of osteochondritis dissecans following Legg-Calvé-Perthes disease: a case report and literature review

698-700 Coalition of trapezoid, capitate, and metacarpal: a case report

701-705 Radial collateral ligament reconstruction of the proximal interphalangeal joint of a finger with severe bony defect: revising a failed ligament reconstruction – a case report

Number 6
