

FROM THE EDITOR

Dear AOTT readers,

We are pleased to present you with the 2018/5 issue of our journal. Publication of this issue coincided with the upcoming 28th Turkish National Congress of Orthopaedics and Traumatology. During the congress, AOTT editorial team will prepare a “manuscript peer-review workshop” for young researchers and new reviewers of our journal. As in previous congresses, all papers and posters to be presented at the National Congress and the 4th Physiotherapy - Orthopaedics and Traumatology Joint Symposium will be published as an AOTT supplement. Their publication on our open-access website will allow continuous access to these works.

I also would like to announce that we have redesigned our web site from scratch to increase the usability. Open Journal System’s standard web package served as well for more than 15 years. As we started moving our submission and publication services out of OJS, web site revision became a necessity. We tried to preserve the colors that our authors, readers are used to and aimed to design a practical web page. Please visit <http://www.aott.org.tr> and check our new page. We will be grateful if you also share your thoughts, suggestions and criticisms.

Best regards,

Prof. Dr. Onder Kilicoglu
Editor-in-Chief
