AIMS AND SCOPE

Acta Orthopaedica et Traumatologica Turcica (AOTT) is an international, scientific, open access periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. The journal is the official publication of the Turkish Association of Orthopaedics and Traumatology, and Turkish Society of Orthopaedics and Traumatology. It is published bimonthly in January, March, May, July, September, and November. The publication language of the journal is English.

The aim of the journal is to publish original studies of the highest scientific and clinical value in orthopedics, traumatology, and related disciplines. The scope of the journal includes but not limited to diagnostic, treatment, and prevention methods related to orthopedics and traumatology. Acta Orthopaedica et Traumatologica Turcica publishes clinical and basic research articles, case reports, personal clinical and technical notes, systematic reviews and meta-analyses and letters to the Editor. Proceedings of scientific meetings are also considered for publication.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested or working in orthopedics and traumatology field, and related disciplines.

Acta Orthopaedica et Traumatologica Turcica is currently indexed in Web of Science-Science Citation Index Expanded, PubMed/Medline, PubMed Central, Scopus, DOAJ, TUBITAK ULAKBIM TR Index.

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (doaj.org/bestpractice).

All manuscripts must be submitted via the online submission system, which is available at www.aott.org.tr. The journal guidelines, technical information, and the required forms are available on the journal’s web page.

Expenses of the journal are covered by the editorial processing charges and the financial support received from the Turkish Association of Orthopaedics and Traumatology and the Turkish Society of Orthopaedics and Traumatology. Potential advertisers should contact the Editorial Office. Advertisement images are published only upon the Editor-in-Chief's approval.

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the Turkish Association of Orthopaedics and Traumatology, editors, editorial board, and/or publisher; the editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

All published content is available online, free of charge at www.aott.org.tr.

Turkish Association of Orthopaedics and Traumatology holds the international copyright of all the content published in the journal. The journal’s content is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License (CC BY-NC-ND 4.0).

Woo-Yong Lee, Hyun-Dae Shin, Kyung-Cheon Kim, Soo-Min Cha, Yoo-Sun Jeon

344 Five-year mortality rate for patients with diabetic hand gangrene who undergo upper extremity amputation  
Shin Woo Choi, Young Ho Shin, Jae Kwang Kim

349 Effect of Different Forearm Positions on fragment rotation in extra-articular distal radius fractures: A cadaveric study  
Maximilian Lenz, Maik Neumann, Christian K. Spies, Gregor Stein, Peer Eysel, Jens Dargel, Johannes Oppermann

Technical Note

355 Sliding rotational osteotomy for cases of dorsally angulated distal Radius malunion: A technical note  
Zaid Al-Ani, Khalid Sharif, Amitabh J Dwyer

Case Report

362 How to extract a broken cephalomedullary nail safely? A case presentation and review of the literature  
Adel Ebrahimpour, Farsad Biglari, Mehrdad Sadighi, Rodrigo Pesánte

Letters to the Editor

367 Comment on “Spinopelvic alignment does not change after bilateral total hip arthroplasty in patients with bilateral Crowe type-IV developmental dysplasia of the hip” by Can et al.  
Alpaslan Öztürk, Nazan Çevik, Yavuz Akalin

370 The second victim in orthopedics and traumatology  
Anna Carreras-Castañer, Carles Martín-Fumadó, César Vargas-Blasco, Josep Arimany-Manso
Dear AOTT readers,

COP26 climate conference will be held in Glasgow in November 2021 and has been described as “the critical moment for the world to come together to avoid global temperatures rising 1.5C above pre-industrial levels with catastrophic effects on health”.

The European Association of Science Editors (EASE) has send out invitation to scientific journal editors to join the initiative led by UK Health Alliance on Climate Change.1

The aim of this call is to gather as many as journal editors together to publish the same editorial at the same time. Leading 18 journals are from every continent and several disciplines that include BMJ, The Lancet, PLOS Medicine, Dutch Journal of Medicine, Chinese Science Bulletin, Danish Medical Journal and others.

Orthopedics and Traumatology might seem to be “out of scope” in environmental issues yet, in my humble view, as healthcare providers and scholarly active individuals we are already deeply involved.

Coming back to orthopedics and traumatology, I am sure you will enjoy reading the articles we have selected for you in this issue of AOTT.

Best regards,

Haluk Berk M.D.
