Acta Orthopaedica et Traumatologica Turcica (AOTT) is a peer-reviewed journal published six times a year by the Turkish Association of Orthopaedics and Traumatology (TOTDER).

Materials published in the Journal is covered by copyright ©2019 TOTDER.
All rights reserved.

Included and indexed in the **Science Citation Index-Expanded (SCIE), Index Medicus-Medline, Index Copernicus, and the Turkish Medical Index.**

This publication is printed on paper that meets the international standard ISO 9706: 1994.

National Library of Medicine recommends the use of permanent, acid-free paper in the production of biomedical literature.

Aims and Scope

Acta Orthopaedica et Traumatologica Turcica (AOTT) publishes diagnostic, treatment, and prevention methods related to orthopedics and traumatology and original studies in related disciplines. Contributions may be in the form of clinical and basic research articles, case reports, personal clinical and technical notes, systematic reviews, meta-analyses and letters to the Editor. The Journal also publishes brief reports on original studies or evaluations, book reviews, and proceedings of scientific meetings. Opinions presented in published articles by no means represent the official endorsement of the Turkish Association of Orthopaedics and Traumatology. Articles and illustrations become the property of the Journal after publication.

The official language of the Journal is English. Electronic versions of all printed articles are presented in both English and Turkish at the official web site (<http://www.aott.org.tr>).

FROM THE EDITOR

Dear AOTT Readers,

With the sixth issue of 2019, we are completing the 53rd volume of our journal. As you will notice immediately, this is the largest issue in the last four years, since we have included all online published articles in this issue. This was due to a necessity since the publishing service agreement between AOTT and Elsevier will be ending at the end of 2019 and the Turkish Association of Orthopaedics and Traumatology (TOTDER) has decided to work with another publishing company.

Starting from the first issue of 2020, AVES, a Turkish medical publishing firm will be the new publisher of AOTT Journal. We have held many meetings with AVES for realizing a smooth and hassle-free transition. AVES has accepted to use our current article submission and review system, the "Editorial Manager" upon the request of the Editorial team, which will prevent many delays and problems in the transfer to another Journal Management System. I would like to thank to AVES team for their meticulous approach to Journal's current publishing problems and their team spirit.

We have accepted numerous articles in the past 3 months. They are not yet published online and planned to be issued in the coming issues. AVES will be preparing these papers in a short time for publication and contact their authors for proof corrections. The DOI numbers will be given by the new publisher accordingly.

In the last issue of AOTT volumes, as an ongoing tradition, we will present you a list of our reviewers of the year 2019, divided by the number of articles they have reviewed. On behalf of our authors, readers and, the Editorial Board, I would like to thank all our esteemed reviewers, and especially those who honored all our review requests.

Looking forward to meet you all in a short time, with the first issue of 2020,

Best regards,

Prof. Dr. Önder KILIÇOĞLU
AOTT Editor-in-Chief
